

JOB DESCRIPTION

Job Title	Mechanical Engineers		
Company/Unit	ASM	Department	Maintenance
Reports To	Mechanical Unit Head	Location & Country	Ikorodu/Nigeria

Brief Job Description with Purpose of the role (in 2-3 Lines)
Supervise mechanical operations, ensuring optimal performance of equipment. Responsibilities include maintenance, troubleshooting, adherence to safety protocols, coordination with teams, and managing shift schedules, maintaining operational efficiency in mechanical engineering tasks.

Key Responsibilities	Experience & Qualifications	Competencies Needed in Role
<p>Mechanical Engineering in Steel Manufacturing Processes:</p> <p>Designing and implementing mechanical systems, machinery, and equipment for steel manufacturing processes.</p> <p>Troubleshooting mechanical issues and implementing corrective actions to minimize downtime and maintain production schedules.</p> <p>Performing regular inspections and maintenance on mechanical equipment to ensure optimal performance and reliability.</p> <p>Develop preventive maintenance programs to extend equipment life. Ensure adherence to safety regulations.</p>	<p>5-10 Years.</p> <p>HND/B.ENG in Mechanical Engineering with Industrial mechanical maintenance experience in a steel manufacturing industry.</p> <p>Expertise in designing and analyzing mechanical systems.</p> <p>Knowledge in thermodynamics and fluid mechanics.</p> <p>Strong understanding of steel manufacturing processes.</p>	<p>Maintenance experience in a steel manufacturing industry.</p> <p>Analyzing Mechanical Systems.</p> <p>Knowledge in Thermodynamics.</p> <p>Strong Understanding of Steel Manufacturing Processes.</p>

Competencies Needed in Role	Level (0 – 5)
A Behavioral Competencies	
1. Excellent stakeholder management and communication skills.	4
2. Proven team leadership and people management	4
3. Conflict management and adaptability	4
B Functional Competencies	
1. Strong knowledge of facility management, canteen operations, and transport logistics	4
2. Proficiency in implementing and improving administrative SOPs	4
3. Quality focused and Compliance	4
